---

* Students who choose HPM 569 as their management and policy elective cannot select this course for their life course elective (and vice versa)  
** Students with previous management coursework may submit a waiver for HPM 502 / GH 521, and must enroll in an HPM course that is not a requirement for their degree program.  
0 Ability to enroll in these courses is dependent on availability.  
§ Ability to enroll in these courses is dependent on availability.  
|| HPM students cannot count these courses towards the Certificate as these are departmental requirements.

---

**PRACTICUM & CULMINATING EXPERIENCES**

MCH Certificate students’ practicum and culminating experiences must both be MCH-related. HPM students whose capstones are not MCH-related must complete 4 additional credits of MCH electives.
